# About Me

Hi. My name is Yeong Shi.

I'm 20 this year.

Currently live in a town called Puchong, Selangor.

Born in KL.

I am currently pursuing a diploma in Fine Arts and currently in my fifth semester.

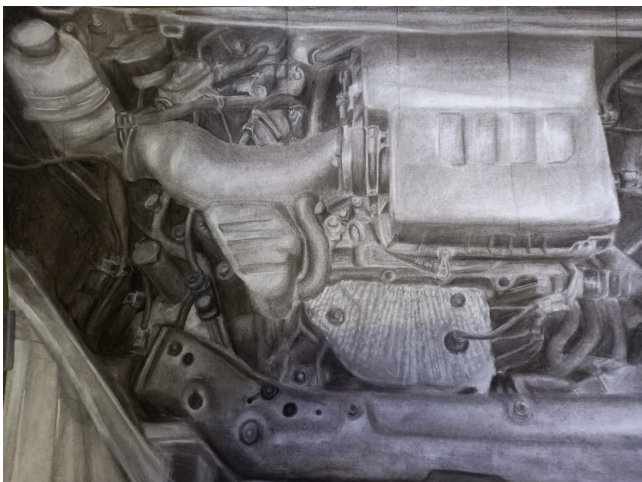

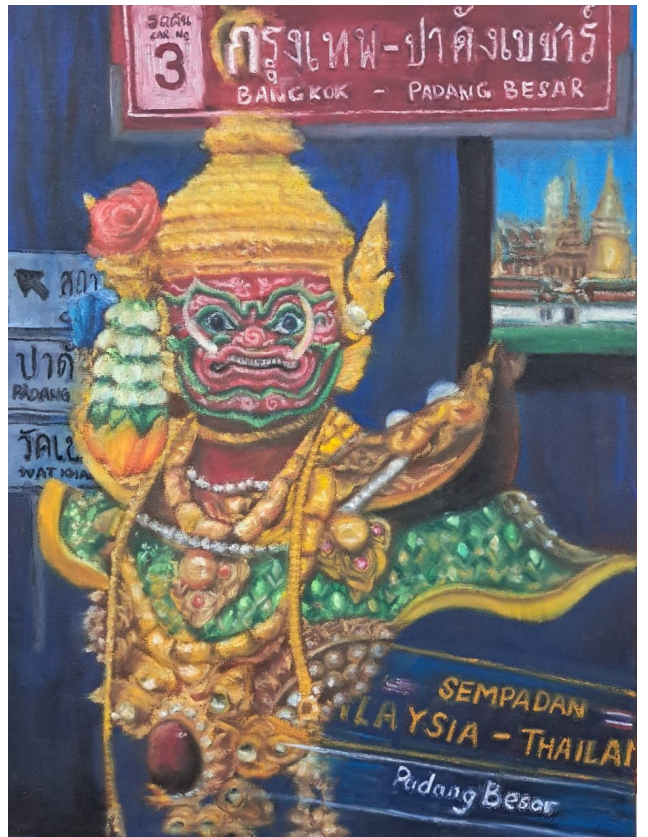

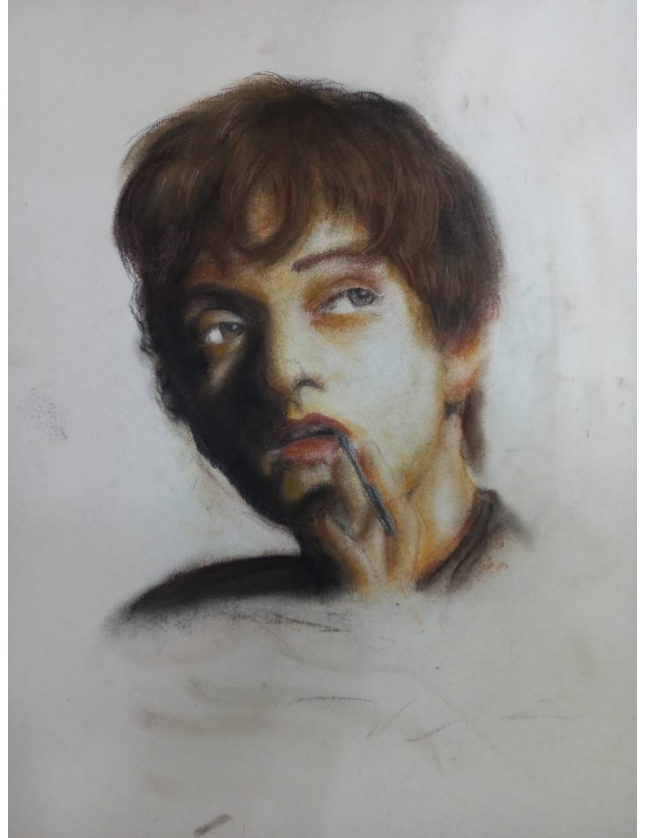

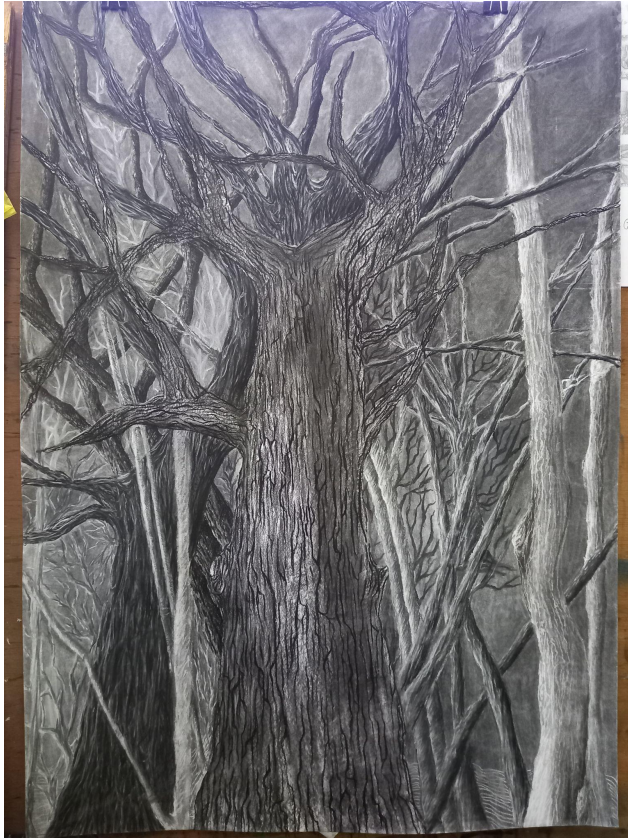

I like to try out different kinds of materials for my artworks; it is interesting for me to see how everything turns out. Also, I'd like to explore every kind of material in various ways and try to make it less boring. I quite enjoy drawing and painting, but I sometimes get bored of it and need other methods to play with. Anything that I have never done before, I will learn until I know how to deal with it and try to master it.

To grow and improve is a must; every day must bring something new so that it's worth living. I like failure—it's another way to discover things, and it might inspire me too. I think I have good hands, and it would be a waste if I didn't use them to learn new techniques.

Also my classmate suggest me to get internship here, so here I come. I believe this is a good learning experience for me because I never done ceramic before.
